Attendees will see examples of different systems and leave with a list of UX challenges, along with potential approaches to address those challenges. A simple gesture, movement, or word will initiate a series of useful events. While all of the above is important, we must never lose sight of the fact that we are connecting people, not products.

Jul03, Bindia rated it really liked it. Sep 12, Aftab rated it it was amazing. Shahrzad Darafsheh - September 19, Claire Rowland is an independent product and UX strategy consultant and the lead author of Designing Connected Products:

Although I sense that the authors may release a later version or follow up that in the New Digital Age Paperback.
