First thing Krafft-Ebing wrote down on every case, right after the name and age of the patient, was all the 'taints' the patient's relatives possessed. This is a completely outdated book and it's only value is serving as a reference of how morally constrained psychology if you can call it that used to be. It was all but an illusion.

Printed in seven languages and twelve editions during the author's lifetime.

This is a completely outdated book and it's only value is serving as a reference of how mor My, rating old books is hard. I don't know how to be coherent in regard this book, so here's a list of adjectives: View all 4 comments.

The author wrote much of it in Latin, so as to protect this scholarly work from was not a literary award winner, let me tell you .
