Simply put, few universities can afford to change from the way they are today. Being relatively new to Oregon State, I'm lucky to work with Raul Burriel the streaming media coordinator for Information Services who was interviewed this past May by Campus Technology about lecture capture but also mentioned online video platforms that provide enterprise capabilities for recording, managing and delivering videos. Read more Read .

It conducts public opinion polling, demographic research, media content analysis. I don't have a password. Survey participants were located in three ways. The sheer volume of educational video creates challenges for faculty in creating new content, as well as finding and reusing content.

One example at Oregon State is using general biology courses, where Senior Instructor report notes that. IT divisions must continue to think about how their systems and infrastructure can scale into platforms and devices that go beyond the traditional and instead into a more competitive, mobile-friendly marketplace.
