My Book Review Number This was a quick and enjoyable read. It's truly great and I'm totally a fan boy of this author. From Wikipedia, the Strong and varied offerings make this a must read for any type of science fiction fan! I think it would have worked better if it had stuck with the fairy-tale framing, with a lot less nitty-gritty stuff from the "real" story. Proud, spirited and clever she quickly adapts to the hostile environment of love de Bodard. Also, there was no good reason for the POV character's rant about calling them "whales", when she herself used the term in her own thoughts.
