Ghosts: A Natural History: Years of Searching for Proof by Roger Clarke

A well-researched history of hauntings delves into our desire to be spooked, writes Natasha Tripney.

A natural history of the supernatural from Roger Clarke, lifelong investigator into England's creepiest real-life ghost stories 'Is there anybody out.

'Is there anybody out there?' However rational we think we are, few of us are completely immune to the idea of ghosts. What explains spectral.

Written as grippingly as the best ghost fiction, A Natural History of Ghosts takes us on a unforgettable hunt through the haunted houses of the last three hundred .

The role of class in people's experience of the supernatural is also examined in some depth. I just edited this review again to correct a minor typo. It's not the definitive exploration of its subject by any means.

Describes Britain's most famous hauntings in a clear-headed way that never t

I finished this book, and I was left with a question. In the Age Roger Clarke knows his ghosts and he takes an interesting approach to. One of the most fascinating aspects of the book to me was Clarke's highlighting of connections between supernatural fiction and real-life incidents.

The function of the ghost story is, after all, to reach those parts that other chapter on Hinton Ampner suffers most here, with Clarke appearing to have way too much information and not knowing what to leave .
