BBC - Earth - The 16 most amazing nests built by birds

Many ground nesting birds make minimal nests. Some, especially shore birds scrape a few rocks together to build a simple structure so their eggs won't roll.

BBC - Earth - The 16 most amazing nests built by birds

Many ground nesting birds make minimal nests. Some, especially shore birds scrape a few rocks together to build a simple structure so their eggs won't roll.

By the time other birds have entered the breeding season and are They won't make their own but rather move in to an old nest built by a crow.

Birds build some staggering structures, from nests the size of walnuts Their nests are harvested to make a Chinese delicacy: bird's nest soup.
